

Sachin
Light
House

Sachin Light House was started by *Mr. Kannayalal D Talreja* who was the founder of the firm in 1981. He was the brain behind the whole business who put in all his efforts starting from a small electrical outlet all the way becoming a strong dealer for Philips. Slowly the company saw the progress and scope and he was finally made the sole distributor for Vellore district

The firm was then taken over by *Mr. Umesh K Talreja* His son who expanded the business marketed the whole firm which led to expansion of distribution range to a radius of 145kms he lead the business for almost 35years

Then come the Two brothers *Sachin Talreja* and Divij Talreja.

Now that the base was set, Sachin was working with TCS for a period of two years after which he decided to join the business. Vellore being set, he had an opportunity to become a distributor for Philips lighting in Bangalore city. After crossing a lot of milestones and a lot of reluctance from the market he set up a good strong hold in the market in Philips Lighting and later also took up the Racold water heater distribution.

After *Divij Talreja* completed his education he directly entered business and took up the distribution of Philips Home appliances and Philips Audio Video and media range and later opened up a Philips exclusive Light Lounge On Richmond road.

Our Vision is to create a company which helps customers see brighter, listen easier and make heating as easy as lighting a candle.

Our Mission is to provide the best in class products to all our customers.
